Summer camp descriptions

Each camp will be filled with fun and hands-on activities. Camps are designed to be fun and educational.

1. June 25-29 Back to Nature

It's time to get down and dirty! We will spend the week learning about gardening. We will learn about what grows in a garden and how we take care of all the growing things!

2. July 2,3,5,6 Stars & Stripes

Happy Birthday USA! We will have a fun-filled week celebrating the USA. There are many ways to celebrate and we will have fun learning about them all!

3. July 9 - 13 Artists of the World

Many art forms exist throughout the world. We will be exploring many different famous artists from all over the globe. We will use our newly discovered knowledge of art to create a variety of art projects.

4. July 16 - 20 Fun with Science

Get out your lab coat. We will explore many different scientific concepts through hands on science experiments. What a wonderful way to begin learning about the Scientific Method!

5. July 23- 27 Music of the World

Put on your listening ears. We will explore the different styles of music from around the globe and the instruments used to create the music. With this knowledge the children will create and construct an instrument...and the composing will begin.

6. July 30 - August 3 Dinosaur a day

Dinosaurs existed from 230 million years ago to 65 million years ago. We will explore the many different types of dinosaurs that lived...and even the dinosaurs' relatives that live today. Through the exploration of dinosaurs, we will touch upon topics such as extinction and environmental change.

7. August 6 - 10 Around the World

Come to explore a country a day. The world is made up of many unique countries, cultures and languages. We will explore the countries through stories, research, projects and food.

8. August 13 – 17 Animals of the World

Lion and tigers and bear, or giraffes or elephants... Come and explore the varied and unique animals from around the world. What do they look like? Where do they live? What do they eat? We will use our newly found knowledge to create amazing animal projects.
